

I believe very stongly that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

Indiana's Telephone Privacy law has improved my time at home. I used to recieve 12 - 14 calls per day while trying to work from my home. This decreased my work productivity as well as increased my blood pressure. Now I receive approximatly two calls per week.

Please do not consider changing our privacy acts. Leave them in place so our home can be our "family time" again!

Thank you,

Missi Brooke
